

# DECLARATION OF CONFORMITY NO. 24 b / 2015

**1. Manufacturer / Manufacturing plant of the construction product:**

Przedsiębiorstwo Produkcyjno Handlowe „ADW” Sp. z o.o.  
43-175 Wry, ul. Zbozowa 2

**2. Name of the construction product:**

**IZOPLAST R-W - anionic asphalt emulsion**

**3. Statistical classification of the construction product:**

PKWiU 23.99.13.0

**4. Purpose and scope of applications of the construction product:**

IZOPLAST R-W is intended for light jointless damp proofing and waterproofing coatings on concrete vertical and horizontal elements below ground level. Coating made of IZOPLAST B-W and protects the structure elements against aggressive substances contained in the ground. IZOPLAST R-W is also designed as a cold primer for concrete cement base before laying the insulation coating materials IZOPLAST BW and IZOPLAST 2K-W and asphalt compound, e.g.: IZOPLAST B' compounds, asphalt felt-paper, including wealdable roofing paper, and to protect wooden elements. Emulsion to be used without limitations in communications industry for road and railway engineering facilities, “subway” construction buildings and for individual purposes.

**5. Technical specification:**

IBDiM Technical Approval No. AT/2012-02-2821/2

**6. Declared technical features of this type of construction product:**

Properties	Requirements
External appearance	At temperature of 23 °C, it is a homogenous brown liquid, without mechanical impurities and asphalt lumps.
Water content, %	≤50
Viscosity (flow rate, Ford viscosity cup ISO 0 4 mm)	from 50 to 64

**7. Name and number of the certification body or laboratory and certificate number or report number of type testing if such unit was involved in the applied system of assessing the conformity of construction products:**

Test report No. TM-1/04/15 and 16-3/15/TN3

The tests were performed at the Research Institute of Roads and Bridges in Warsaw by the Team for Bridge Diagnostics and Repairs and at the Surface Technology Department

**I hereby declare with full responsibility that this construction product is compatible with technological specification indicated in point 5.**
